- 1 x 1Kg VYTAC Acid Neutralizing Powder
- 1 x Hard Carry Case
- 1 x Instructions

Kit will absorb approx 8 Litres and neutralize 2 Litres of battery acid.

Keep your battery charging and filling area prepared with our 10 Litre Battery acid spill kit. This kit is specifically made to neutralize battery acid spills quickly and absorb them effectively. You will be equipped with everything needed to stop the spill from spreading and clean-up the exposed area.

Ideal for remote workers and repair personnel in the field.

For maximum safety VYTAC-ACX Acid Neutralizer contains an indicator system that shows you when the liquid is completely neutralized. The powder also contains anti-foaming agents.
