Extremely versatile Bonded Medium Weight oil only pad that can be used indoors or outdoors, in the wet or dry. SERPRO Oil Only Pads will float on water and only absorb the oil

These pads are our best sellers for the absorption of hydrocarbon spills. They are the perfect solution for remote workers in the field when working around water and the potential for oil, or fuel, pollution is high. As they only absorb the hydrocarbon fluid they can be used as oil spill skimmers in ponds or waterways.

SERPRO Oil Only products are ideal when you need to blanket a larger spill

either indoor or out and when absorbing only the oil, and not the water, is essential.
