Exceptionally useful Un-Bonded Medium Weight oil only absorbent pad which has the potential to be put to use inside or outdoors, in the wet or dry.

SERPRO Oil Only Pads is designed to float on water and exclusively soak up the oil

These particular pads really are exceptional for the absorbtion of hydrocarbon spills. These products are an optimal solution for rural workforce in the field while doing work close to water and the chance for oil, or fuel, pollution is very high. Since they only soak up the hydrocarbon fluid they are often put into use as oil spill skimmers in ponds or waterways.

SERPRO Oil Only products are a great choice when you need to blanket a

much larger spillage either indoor or outside and when soaking up only the oil, and not the water, is absolutely essential.
